Work History

2021-07 -
Current

Software Engineer

Pactera Technologies, Hyderabad, Telangana

- Working on Microsoft Fraud Protection Tools to minimize fraudulent activities across all Microsoft Line of Business.
- Successfully migrated legacy code base from .NET framework 4.7.1 to .NET Core 5.
- Redesigned application from monolithic to micro-services architecture.

2020-10 -
2021-06

Software Engineer 1

MAQ Software, Mumbai, Maharashtra

Client Project:

- Worked closely with other developers, to develop new features on a web app according to requirements of the client. Wrote well tested code in C# with ASP.NET for backend development and JavaScript with jQuery for frontend development along with Razor framework from Microsoft. Also worked on fixing bugs and resolving incidents on production environment.

2019-10 -
2020-10

Software Intern

MAQ Software, Mumbai, Maharashtra

Client - Project:

- Collaborated with other developers to develop new features according to client requirements. Wrote well-tested code in C# and Angular JS for an ASP.NET Framework Web App.

Internal - Project:

- Developed a web app from scratch using ASP.NET

Core using C# for backend development and Angular 2+ (TypeScript) for front-end. The app was secured with Azure Active Directory authentication allowing only users within the organization access to the Portal. The portal is used daily by many users in the organization.

Client - Project:

- Implemented a custom people - picker component, with add and delete functionalities on a Dynamics 365 portal using JavaScript, which allows the authenticated user to search for other users in his organization. The component authenticated the users on the basis of the MSAL library provided by Microsoft.

Client - Project:

- Worked closely with other developers to develop new features on a web app according to the requirements provided by the client. Performed unit testing on all the C# code that was developed by me, to provide clean and tested features. The web app uses ASP.NET Framework with C# for the backend and CSHTML and JavaScript for the front-end. Also racked up some experience of working with Azure Cosmos DB while working on the project

Certifications

2019-11	Querying Data with Microsoft SQL Server - Microsoft
2019-12	Analyzing and Visualizing data with Microsoft Power BI - Microsoft
2020-08	JavaScript (Basic) - HackerRank
2020-10	Microsoft Certified: Power Platform Fundamentals
2020-12	Microsoft Certified: Azure Developer Associate

Education

2016-08 -
2020-07

Bachelor of Science: Computer Science Engineering

Lovely Professional University - Jalandhar, Punjab

- Graduated with 7.31 CGPA
